***Beware of swindlers!***

***Dear Sir or Madam,***

Supporting the value of publicity in socially beneficial activities and the immaculate reputation of charitable organizations working in Ukraine, we would like to inform you about a mala fide non-governmental organization.

In 2014, the **European Development of Ukraine Non-Governmental Organization, EDRPOU code 36059326**, whose director is **Andriy Georgiyovych Ginkul**, received a charitable grant in the amount of UAH 500,000 (five hundred thousand) for the purpose of establishing a Fund for Promotion of Entrepreneurship in Dobropillia, Donetsk Region, and Burshtyn, Ivano-Frankivsk Region. Within the period stipulated by the agreement, the funds from the charitable grant were not used as intended, and the Contractor did not repay the funds upon the Donor's request. The Economic Court of Kyiv, upon application of the Institute of Management Consultants of Ukraine, initiated proceedings, and on December 03, 2015, decided ***to recover the debt amounting to UAH 500,000.00 and the litigation costs from the European Development of Ukraine Non-Governmental Organization***. As of February 19, enforcement proceedings are initiated against the mala fide contractor.

Please be aware of the danger of blocking of the accounts of the ***European Development of Ukraine Non-Governmental Organization*** due to the enforcement proceedings initiated against it.

In order to ***prevent this organization from further operation***, please share this information with your partners and other organizations to ensure their safety.

Yours faithfully,

Olena Yuzkova,  
President of IMC-Ukraine All-Ukrainian NGO,
